

Dear DeviceAnywhere User,

Happy New Year! As we start this year, DeviceAnywhere now offers remote access to over 700 live handsets, in 4 different countries, and across 18 different carrier networks!

So what's in store for 2008? The DeviceAnywhere Team is currently working on developing new features, deploying more markets, and of course launching many more handsets! Stay tuned for specifics to be announced next month. And if there are any features, markets, or handsets that you would like to request, please click on Contact us in the banner above, or send an email directly to DASales@deviceanywhere.com, and give us your feedback!

DeviceAnywhere Special Offers: FREE Access to France and Sony Ericsson Packages!

Reminder! Access to SFR, Bouygues, and Orange France packages is FREE until the end of January. To take advantage of this offer, sign up for any or all of the three France packages by logging into your DeviceAnywhere account. You will automatically be credited any package access fees.

Also - access to the Sony Ericsson package is FREE until March 31st! Again, sign up simply by accessing your account and adding the Sony Ericsson package.

Note: Regular hourly pricing for usage still applies for the France and Sony Ericsson offers. If you are not currently a DeviceAnywhere customer, you will receive half off your first promotional package (regular monthly price of \$200), and the remaining packages access fees will be free.

Upcoming DeviceAnywhere Events: 3GSM!

DeviceAnywhere will be exhibiting at 3GSM in Barcelona, February 11-14! Please visit us at our booth, #7C98 (Hall 7).

You can also check us out at 3GSM in:

- The HP booth, #8B117 (Hall 8), for a demo of using DeviceAnywhere with HP Quality Center
- The Accenture booth, for a demo/presentation
- The IBM booth, for information on the IBM Rational ClearQuest/DeviceAnywhere integration
- The WIP Mobile Jam Session, February 12th, where we will be speaking

We hope to see you there!

Try Out TryPhone.com!

Mobile Complete has launched a new consumer site, where users can try out phones over the internet! Unlike DeviceAnywhere, these online phones are not attached to real devices, but they are interactive! Check it out at TryPhone.com.

DA Tips and Tricks

Did you know that you can now download the list of available DeviceAnywhere handsets into an excel file? To do so, follow these simple steps:

▶ Log into your account at DeviceAnywhere.com, and go to the Device Search tab

▶ If you would like to narrow down the list, choose the manufacturer or package of interest and click on the blue arrows to generate the new device list

▶ Once you have the list you want, simply click on the "Export to Excel" button on the top right of this page. You will have the option to either open or save the .csv file that is generated, which contains the package, manufacturer, and model for each device

Resources

▶ Sign up for our FREE [DeviceAnywhere Training Webinar](#), to be held on Thursday, January 31st, at 10AM PST. Attendees will have an opportunity to ask questions real-time as well as learn about new features now available in our latest release (DeviceAnywhere 4.0)!
