

Dear DeviceAnywhere Users,

June is in full swing for DeviceAnywhere users. This month we've seen an increase in sign ups and partner activity. The promotion for Japan FREE package access is coming to a close at the end of June! So for those of you interested in taking advantage of this promotion, there's not much time left.

BTW, we are celebrating 1,000+ live devices on DeviceAnywhere this month. That is no small feat for our Direct-to-Device (TM) technology. We want to thank our customers for making it possible. For more exciting DeviceAnywhere news, and to see the June list of new and upcoming handsets, please read on!

DeviceAnywhere Recognized at the 2008 Mobile Content Awards

London, June 20, 2008, DeviceAnywhere was recognized at the 2008 Mobile Content Awards, receiving the Silver Award in the "Best Start-Up Company" category. The Mobile Content Awards – an event created by Visiongain Global, a telecoms analyst firm that has published several reports worldwide – included speakers and sponsors from several high-profile companies, including Vodafone, Orange, Nokia, Adobe and Accuracast. The judges acknowledged DeviceAnywhere's rapid growth into Europe, as well as its popularity among developers throughout the region. The award is an honor for DeviceAnywhere as a company, as it exemplifies DeviceAnywhere as the premier solution for end-to-end mobile development, as well as positions the company for continued expansion into other European territories. DA Tips and Tricks

Did you know DeviceAnywhere has a video upload feature that lets you generate a movie clip of device activity?

▶ You can generate a movie clip including audio by selecting the Export command in the Device menu.

▶ These files tend to get very large and can stall your computer. You can control the size of your file in a couple of ways. Try to keep the Upload to Quick Time or Windows Media to less than two minutes, the shorter the better. Reduce your frame rate. Turn off sound when you don't need it. And if you use this feature frequently, consider using a quad processor.
