

Dear DeviceAnywhere Users,

This past month was an eventful one as we launched our new release, DeviceAnywhere 4.2, and upgraded to a new data center in France. In addition, we've launched a new International MOTODEV Virtual Developer Lab. With all of the France handsets, plus the other handsets launched in the past month, our newsletter contains over 100 recently launched devices!

More details on these and other DeviceAnywhere activities can be found below. And lastly, we want to take the opportunity to thank you for your patronage, and wish all of you a very happy and healthy new year.

#### In This Newsletter

- ▶ [New DeviceAnywhere Handsets: Recently Added and Coming Soon](#)

## Motorola Has Partnered With DeviceAnywhere to Launch the MOTODEV Virtual Developer Lab!

The new International MOTODEV VDL is now available, with over 30 devices from across Europe. Click [here](#) for more information.

## New and Expanded France Data Center Opens Its Doors

Our new data center hosts an expanded bank of French devices with over sixty new handsets, including the iPhone 3G, and the HTC Touch Diamond. See the full list of new devices added below in the devices list.

To celebrate this event, we are extending a limited time offer of 50% off France device package access fees for new subscribers, for the first 3 months. This means access to France packages is \$50 per month! To find out more about this offer, or to sign up now, e-mail us at [promotions@deviceanywhere.com](mailto:promotions@deviceanywhere.com). This offer is good until February 28th, 2009.

## DeviceAnywhere Release 4.2 Is Here

DeviceAnywhere Release 4.2 was rolled out on December 7th. For a complete list of new features, click [here](#). You can also check out the latest and greatest DeviceAnywhere User Guide for detailed information on using these new capabilities.

## Upcoming Events

### Mobile World Congress, 2009

February 16-19 Fira de Barcelona, Barcelona, Spain

Come by booth #2A17 (Hall 2) and experience the latest in DeviceAnywhere technology and the newest devices! Look for DeviceAnywhere in our partners' booths as well! And don't miss out on a great Mobile Jam Session. More details coming soon!

Click [here](#) for the Mobile World Congress agenda and other information about this

#### DA Tips and Tricks

Did you know that the Wait for Device feature has been enhanced? You can now opt to either automatically acquire the device, or receive a notification when it's available that you can accept or reject. And, now you can wait for up to three devices at once!

Using Wait for Device:

1. Right click the device and select Access Device, Wait for Device in the menu.
2. Select whether you want to automatically acquire the device when available.

If you have not opted to acquire immediately, a prompt is displayed when the current user releases the device. You have three minutes to accept the device before it moves to the next user in the wait queue. Note that you are NOT charged for devices in your wait list; minutes only accrue once a device has been acquired.

#### Resources

▶ Sign up for a DeviceAnywhere Training Webinar, Thursday, January 8th, 2009 at 10:00 AM PST. We'll be going over the new DeviceAnywhere 4.2 features. [Click here](#) to reserve your seat!

▶ Find out more about DeviceAnywhere Pro, our automation technology, by attending the DeviceAnywhere Pro Webinar on Wednesday, January 28th, 2009 at 10:00 AM PST. [Click here](#) to reserve your seat!

▶ Do you have any ideas for new DeviceAnywhere features? Tell us about them by sending an email to [features@deviceanywhere.com](mailto:features@deviceanywhere.com)!

event.
