Dear DeviceAnywhere User,

This month, we've announced that DeviceAnywhere is working with the BlackBerry Developer Fund to support the Super Apps Developer Challenge. In addition, results from the DeviceAnywhere Test Center Customer Survey are in. And, we've added a number of new devices to Test Center, including the Nokia N900 for Vodafone and the HTC HD2 on T-Mobile (US).

For more DeviceAnywhere news and details on recently added devices, please read on below!

DeviceAnywhere Test Center Survey Results Are In!

Thanks to everyone who responded to the survey. We've compiled some of the results that we thought would be interesting to the industry, covering the types of content being developed, on which platforms, and for which app stores.

To view these results which are posted on the Test Center Blog, click [here](#).

DeviceAnywhere In the News!

DeviceAnywhere Works with BlackBerry Partners Fund for 2010 Developer Challenge

SAN MATEO, Calif., USA (April 28th, 2010) -- DeviceAnywhere is working with the BlackBerry Partners Fund during the newly-announced BlackBerry Partners Fund Super Apps Developer Challenge. The competition, which is open to all developers, aims to spur the development of deeply integrated applications that deliver a compelling user experience leveraging the unique capabilities of the BlackBerry Application Platform.

Developers entering this competition will benefit from a direct link to DeviceAnywhere Test Center, as well as DeviceAnywhere Proof Center™ where users can compile evidence that their application works successfully using handset screenshots and video, which are automatically saved and organized into proofs that can later be viewed via the web. For the purposes of this competition, Proof Center serves as the testing platform for a more in-depth submission process that developers will use to submit a higher-quality version of their application, before they proceed to the final phase in which winners will be selected.

In addition, DeviceAnywhere will create free interactive tutorials using DemoAnywhere™, a solution that allows developers to demonstrate the application's key features and functionality to consumers.

April's Featured Feature: Send SMS

Useful for interrupt testing, or for sending a link to a device, this feature can be found in the Device Console, under the tools section (wrench icon). Simply select the Send SMS tab, type or paste your text into the box, and hit the Send button.

New and Upcoming DeviceAnywhere Test Center Handsets

DeviceAnywhere Tips and Tricks

Using the BlackBerry Storm and Storm 2 in DeviceAnywhere

Select an item: place the cursor on the item you are selecting on the screen and use the right-click on your mouse. This mirrors the functionality of touching and pressing. Note: to open the device menu, which typically requires a right-click on the device, right-click on the device image, outside of the device's screen.

Highlight an item: place the cursor on the item you are selecting and use the left-click on your mouse. This mirrors the action of lightly touching an item on the device's screen.

Scroll: left-click, hold, and drag in the direction you would like to scroll.

Resources / Training

Attend a DeviceAnywhere Test Center Training Webinar! Sign up for a free webinar at one of the available times below:

Thursday, May 13th, 9:00 AM - 10:00 AM PST

Thursday, May 27th, 9:00 AM - 10:00 AM PST

Thursday, June 10th, 9:00 AM - 10:00 AM PST

Learn how to automate your mobile tests with the new 5.0 DeviceAnywhere Test Automation! Choose from our available sessions listed below:

Wednesday, May 5th, 7:00 AM - 8:00 AM PST

Wednesday, May 12th, 10:00 AM - 11:00 AM PST

Wednesday, May 19th, 7:00 AM - 8:00 AM PST

Wednesday, May 26th, 10:00 AM - 11:00 AM PST

We are hosting a repeat of the Test Case Manager Webinar on May 6th, 9AM, due to its popularity! This webinar focuses on the features available in Studio to help manage the QA process. Click [here](#) to sign up!
