Dear DeviceAnywhere User,

We are recently back from a well-attended Mobile World Congress where we demonstrated our new 5.0 products - thanks to everyone who visited our booth!

We also made a number of exciting announcements in the last month, including a new partnership with Vivo to provide DeviceAnywhere Brazil and with Motorola to support China handsets!

And as always, we have added many new handsets to our device bank. For more DeviceAnywhere news and details on recently added devices, please read on below!

### DeviceAnywhere In the News!

#### DeviceAnywhere Brazil to Launch in March with Vivo

SAN MATEO, Calif., USA (February 16, 2010) -- DeviceAnywhere together with Certified® ([www.certified.com.br](http://www.certified.com.br)), the leading provider of testing and certification for mobile applications in Latin America has partnered with Vivo, the largest mobile phone service provider in Latin America with over 50 million customers, to launch the DeviceAnywhere Vivo Virtual Developer Lab (VDL). The Vivo VDL, available in March, will provide remote access to over thirty mobile devices physically located in Brazil, from anywhere in the world.

#### DeviceAnywhere Adds New Chinese Mobile Devices to MOTODEV VDL

SAN MATEO, Calif., USA (February 15, 2010) -- DeviceAnywhere, in response to the increased demand for mobile application testing on Chinese devices, today announced the addition of new Chinese mobile devices to the DeviceAnywhere MOTODEV Virtual Developer Lab (VDL). Initially, the MOTODEV VDL will include devices such as the Backflip MB300/ME600 and MOTO XT800 Android-based devices.

### DeviceAnywhere Test Center Annual Customer Feedback Survey - Coming Soon!

It's that time again, to ask you to share you thoughts about DeviceAnywhere Test Center. Customers will soon be receiving an email with a link to the survey: please let us know what you think! We read all responses carefully and use them to help shape our product roadmap.

### New DeviceAnywhere Resource: Recorded Webinar

DeviceAnywhere has recently added a 20-minute recorded webinar that covers all of the main functionality of DeviceAnywhere Test Center. This webinar is a great training tool for new users or even existing users who want to brush up on the new capabilities available with DeviceAnywhere 5.0. We will still continue to offer our Live webinars every two weeks, where you can ask question in real time, but if those scheduled times are not convenient, you can now watch our webinar anytime!

### DeviceAnywhere Tips and Tricks

With the new Send SMS feature, you can now easily send links to a device - to stored applications, websites you want to test, etc.

To send a link to a device:

1. Go to the Send SMS tab in the tools section of the device console (click on the wrench icon and then the Send SMS tab).
2. Copy and paste your URL into the text box provided, and then press Send.
3. Your message will show up on the device in a few seconds!

### Resources
