Dear DeviceAnywhere User,

Our new package Vivo Brazil is now Live! This package adds 30 new handsets to our device bank - and including the 14 devices in other packages we also added this month that is over 40 new handsets in DeviceAnywhere Test Center!

In other news, we had some great attendance at CTIA (thanks everyone who visited our booth) and made some exciting announcements, including the launch of DeviceAnywhere Metrics, a monthly publication which reports on device popularity based on aggregate usage in DeviceAnywhere Test Center.

For more DeviceAnywhere news and details on recently added devices, please read on below!

DeviceAnywhere Test Center Launches Vivo Brazil Package

The Vivo Brazil package is now available in DeviceAnywhere! Currently including 29 devices, with more to come, this package features handsets such as the Apple iPhone, BlackBerry Bold, and HTC Touch.

If you are interested in addressing the Brazilian market, you can sign up for this package now through your DeviceAnywhere website MyAccount tab, or by contacting sales at DA_Sales@deviceanywhere.com.

DeviceAnywhere In the News!

DeviceAnywhere Launches DeviceAnywhere Metrics!

SAN MATEO, Calif., USA (February 16, 2010) -- DeviceAnywhere has launched a new monthly report, called DeviceAnywhere Metrics. This report looks at aggregate usage on DeviceAnywhere Test Center handsets, across the top four carriers in the US, and discusses trends by device, OS, and manufacturer. The report will be published monthly, and is available for free. Click [here](#) to view January's report. View the full press release [here](#).

March's Featured Feature: Test Case Manager

Launched in 5.0, the Test Case Manager is a workflow on top of DeviceAnywhere Test Center, that allows users to manage their QA process, right in DeviceAnywhere Studio. You can create and execute against test plans, and view automatically generated reports, complete with screenshots and or video proof.

This feature comes free with DeviceAnywhere Test Center, and all customers have access to it by clicking on the Test Case Manager view in the left panel of DeviceAnywhere Studio. For more information about it, you can view this [blog post](#), or sign up for this free [live webinar](#) on Thursday, April 8th.

New and Upcoming DeviceAnywhere Test Center Handsets

DeviceAnywhere Tips and Tricks

Uploading an Application to an iPhone

DeviceAnywhere has recently launched a new feature that allows you to easily upload applications to an iPhone. Note: this feature is in process of being deployed across all of the iPhones; please contact DA_Support@deviceanywhere.com for the latest list of the iPhones with this feature.

Details on using this functionality complete with pictures can be found in this [blog article](#), but the abridged version is:

1. Go to the Applications tab in the tools section of the device console (click on the wrench icon and then the Applications tab).
2. Select Add Application to first upload your application to the DeviceAnywhere server, and select iPhone as the application type.
3. When you upload your application, make sure you zip up your files, and select your files that should be in the form of [appname].app folder.
4. Once you have uploaded your application to our server, select the Data Cable button to deliver your application, and the app will be side-loaded on the device.

Resources

Attend a DeviceAnywhere Test Center Training Webinar! Sign up for a free webinar at one of the available times below:

Thursday, April 1st, 9:00 AM - 10:00 AM PST

Thursday, April 15th, 9:00 AM - 10:00 AM PST
